

Alfresco Jive Toolkit v1.1.0-SNAPSHOT

January xx, 2012

The Jive Toolkit provides an integration between the Alfresco Enterprise Content Management System and the Jive Engage Social Business Platform. It operates by allowing the user to save files into Alfresco instead of Jive's native file storage system. CMIS API calls are used by Jive to communicate with Alfresco.

Installation

Please refer to the Alfresco Enterprise 3.4 Documentation Center for information on installing the Jive Toolkit: <http://docs.alfresco.com/3.4/index.jsp>

Supported Alfresco Versions

Alfresco Enterprise 4.0

Supported Jive versions

Jive Engage SBS 5.0.1.0 **only**

Issues

If you're an Enterprise customer using the Toolkit, please raise a customer support ticket for any issues you encounter at <http://support.alfresco.com/>

Confirmed issues are being tracked in Alfresco's JIRA instance, at <https://issues.alfresco.com/jira/browse/JIVE>.
